About

I'm a Web Designer passionate on designing User Interfaces and Experience for SASS Applications. With 6+ years of experience, I've evolved from Web Designer to Product Designer, delivering comprehensive design solutions for complex products.

Work Experience

Product Designer, Niural Inc.

Nov 2022 - Current

- Recently clocked a milestone by raising Series A of \$31 million.
- Create a robust design system that's user-friendly and developer-focused.
- Lead strategic UX decisions, balancing both short-term considerations and long-term vision.
- Bring clarity and understanding to abstract and ambiguous UX problem spaces.
- Work on all aspects of design, including customer experience, user interface, and service design.

UI/ UX Designer, Infinity Digital Agency

Oct 2021 - Apr 2022

- Utilize user-centered design practices to craft seamless, user-friendly, and engaging experiences for web and mobile platforms.
- Transform business requirements into sketches, wireframes, storyboards, task flows, clickable prototypes, animations, interface guidelines, and design standards.

Web Designer and Developer, The Vesper House Pvt. Ltd.

Mar 2020 - Apr 2021

- Played a key role in the development of the organization's new ecommerce store and visual identity.
- Proven track record of excelling in team-oriented settings involving stakeholders, marketing professionals, and developers.
- Tools: Figma, HTML5, MongoDB, React JS, Tailwind.

Product Designer, Prime International Pvt. Ltd.

Apr 2019 - Feb 2020

- Created 3D models and CAD wireframes as part of the product design process.
- Assisted in making design choices, identifying and resolving possible problems.
- Recorded and documented all stages of the product's design journey.
